

Tvrdokovové vrtáky za 1/2 ceny

3. Tungsten Carbide , Durable at use
 4. Large Chip Removal , High Efficiency
 5. Application: Suitable for process Stainless steel, Mold steel, Ductile iron, Alloy steel, Quenched and Tempered steel, Spring steel, etc.
 6. Applicable machine: CNC machining center, CNC machine tools, Engraving machines, Precision engraving machines, High-speed machines, etc.

Shape Edge,
Cutting Smooth without burrs

Nano Coating ,
Anti-rust and wear-resistant

Tungsten Carbide , Durable at use

Large Chip Removal , High Efficiency
