

## SPZB TOOLMAKERS SCREWLESS VISE

### Properties and application:

- SPZB precision toolmakers screwless vise is widely used on grinding machines, CNC machining centers and for precision measurements.
- Clamping force prevents the workpiece from lifting (recommended angle for the screw is 45°).
- Movable jaw with horizontal and vertical prisms.
- Quick adjustment of the jaw.
- Made of high-quality alloy steel.
- The hardness of precision ground working surface is 58-62HRC.
